

**Verse 1**

Almost gave me hope again  
Almost pulled through for me  
You had me thinking maybe  
I could get there with you

Almost kept your promises  
Almost stood beside me  
Visionary fallacy  
That I couldn't see through

**Chorus**

Didn't know the road you were leading me down  
Was a dead end you were selling me  
But every time you tugged on my heart strings  
Kept getting easier not to believe

**Verse 2**

Almost bought into all your lines  
Forgetting all the pain inside  
Heard footsteps getting distant  
Feet that went without me

Almost had a heart attack  
You...almost gave me credit  
But...your ego wouldn't let it  
Your words, hyperboles

**Chorus**

Didn't know the road you were leading me down  
Was a dead end you were selling me  
But every time you tugged on my heart strings  
Kept getting easier not to believe

**Verse 3/Bridge**

Almost fell head over heels  
With that picture in my head  
Almost lost myself in you  
I found myself instead  
Now I hold myself back every time  
Got to keep my impulses in line  
Never letting you get too close  
But I wanted to...almost
