

Verse 1

Feels like I'm caught in between
a rock and a hard place
I want to be closer when
all you want is your space

My heart can't respond back
If it doesn't feel yours beat the same.

Coda

Will you tell me where you have
Your mines hidden away
Are you not concerned if I
Put my life on the line to stay

Chorus

But you're the only one
who could ever cause
The type of backfire
That makes me pause
And take back the words
I said about love
I want those explosions
You can't make up

Verse 2

Feels like I took a misstep
Fell down the rabbit hole
Could you shine a light my way
Before I lose control

Cause the fire needs to breathe
If it wants to keep fanning its flames.

Coda

Will you let the bomb go off
With the pin still in your hand
I can't get a read on you
And it could blow up where I stand

Chorus

But you're the only one
who could ever cause

The type of backfire
That'll make me pause
And take back the words
I said about love
I want those explosions
You can't make up
