

Verse 1

It's not gonna make sense to me
A song that stays in minor key
Locked down a lucid chemistry
Still you make excuses to step back

If I could get you focused on my touch
Instead you're lost in your head too much

Chorus

Don't play me like a violin
I've heard that song before
Don't ask me if I'll wait again
That's the wrong underscore
Weren't melodies meant to evolve
Still you leave ours unresolved...within
Don't play me like a violin

Verse 2

While you keep plucking every string
Chords never heard awakening
The tension just keeps on building
Still you'll be skipping over tracks

If I could get you focused on my touch
Instead you're lost in your head too much

Chorus

Don't play me like a violin
I've heard that song before
Don't ask me if I'll wait again
That's the wrong underscore
Weren't melodies meant to evolve
Still you leave ours unresolved...within
Don't play me like a vio...
Don't play me like a violin

Bridge

You'll say that life's a game
Okay, I feel the same
But the rules are bent a bit
So let's take control of it
Tuned out in different ways

You'll shape the way we play

Chorus

Don't play me like a violin

I've heard that song before

Don't ask me if I'll wait again

That's the wrong underscore

Weren't melodies meant to evolve

Still you leave ours unresolved...within

Don't play me like a vio...

Don't play me like a violin
