

**Verse 1**

Mixed up all my dimensions  
Made it hard to concentrate  
Feel so exposed at the moment  
So used to playing it safe  
Can't fight the law of attraction  
I think I'm going out of my mind  
Explosive chemical reactions  
Make me lose all sense of time

Cause...

**Chorus**

I have lost control  
Over the situation  
No longer whole  
Just an abbreviation  
I was a hieroglyphic  
Something you could not read  
Now no longer encrypted  
You see all of me

At first I was ...

A little less descriptive  
But you read between the lines  
Showed me a new perspective  
Opened my eyes when I was blind  
Broke down all of my defenses  
Before I was ready/**Boy, I'm going crazy**  
Now im stuck with these intense emotions  
Cascading over me

**Verse 2**

Such a mess; I can't function  
In an unbeatable race  
Challenged by you every moment  
I'm so addicted to the chase  
Try to act like I'm unaffected  
Try to process what you're giving me  
But you make me feel so connected  
Want to feel your intensity

Cause...

**Chorus**

I have lost control  
Over the situation  
No longer whole  
Just an abbreviation  
I was a hieroglyphic  
Something you could not read  
Now no longer encrypted  
You see all of me

At first I was ...

A little less descriptive  
But you read between the lines  
Showed me a new perspective  
Opened my eyes when I was blind  
Broke down all of my defenses  
Boy, I'm going crazy  
Now im stuck with these intense emotions  
Cascading over me

**Outtro**

I've lost control  
Oh what you're doing to me  
I've lost control  
That's what you did to me
