

**Verse 1**

All I can see  
Is you there, holding her  
But it all seems wrong  
I try to be strong  
Make it disappear

**Coda**

Cause something inside of my heart  
Is wanting me to be your girl  
And something inside of my heart  
Is wanting me to be in your world

**Chorus**

In my reality  
It's my own fantasy  
I hold on tightly...to  
This dream I have of you  
May not be the truth  
But I believe it with all of my conviction  
I'll try to block it out; dont want to listen  
Dont remind me of the difference  
Between fact and fiction

**Verse 2**

And in all my dreams  
You are there, holding me  
Looking in your eyes  
I can see  
My everything (and I'm complete)

**Coda**

Cause something inside of my heart  
Is wanting me to be your girl  
And something inside of my heart  
Is wanting me to be in your world

**Chorus**

In my reality  
It's my own fantasy  
I hold on tightly...to  
This dream I have of you  
May not be the truth  
But I believe it with all of my conviction  
Baby you're my addiction  
Please don't tell me the difference  
Between fact and fiction
