

**Verse 1:**

My heart is locked up  
So reserved, so quiet.  
Now that my heart is broken  
You made me feel like  
I didn't deserve love  
Closed eyes now awoken

I'm indecisive  
Rollercoaster in my head  
Do I feel you here still?  
Now that you've let me fall in.

**Chorus:**

Inside myself  
Fighting for a loophole  
To save myself  
To find a way out  
Inside myself  
Facing all my demons  
The way I felt..  
Losing you.

**Verse 2:**

My heart was open  
Roadblocks and bridges  
Now sealing off my fate  
Darkness that overwhelms  
Did I cross over  
Those same bridges too late?

Circling motions  
Let my visions take me down  
Do I still see my path here?  
As I watch myself fall again/As I'm falling again

**Chorus:**

Inside myself  
Fighting for a loophole  
To save myself  
To find a way out  
Inside myself  
Facing all my demons  
The way I felt..  
Losing you.

**Bridge:**

Vulnerabilities  
I hide so you can't see  
What this has done to me  
I'm aching

Vulnerabilities  
Tear apart all my dreams  
Stop feeling anything  
I'm faking.

**Chorus:**

Inside myself  
Fighting for a loophole  
To save myself  
To find a way out  
Inside myself  
Facing all my demons  
The way I felt..  
Losing you.
