Verse 1
There's not a day you don't come over
Everywhere i look you're there
I used to not mind it that much
But I need a little air
We had fun just the two of us
But when I go to leave you follow me
Maybe I need a restraining order
Cause you're in too close proximity

Coda
Step over a few feet
Cause I don't have room to breath
Take some time just on your own
And think about leaving me alone
Cause…..

Chorus
I'm suffocating
Your love's invading
All the space I used to have
I used to like it
But now it bugs me/But now I hate it
Can't you see your love is bad
If I ditch you for a few hours and then come back
You're exactly where I left you at
I know if I leave my house, you'll be waiting
Can't you seeI'm suffocating

Verse 2
The phone is ringing again and again
Oh I wonder who could it be
The very moment i hang up
You're standing next to me
I'm boxed in and I feel stuck
I don't seem to have anymore space
I'm claustrophobic cause all that is around
Is your same constant annoying face

Coda
Step over a few feet
Cause I don't have room to breath
Take some time just on your own
And think about leaving me alone
Cause…...

Chorus
I'm suffocating
Your love's invading
All the space I used to have
I used to like it
But now it bugs me/But now I hate it
Can't you see your love is bad
If I ditch you for a few hours and then come back

You're exactly where I left you at
I know if I leave my house, you'll be waiting
Can't you seeI'm suffocating

Outtro
At first I liked all the attention
But now I don't know how to respond
One more thing I might have forgot to mention
I'm suffocating from this bond/I'm suffocating, break this bond
