

# When You Think You're In Love

## Verse 1

Remember that one day  
When we were on the stairs  
You said that you loved me  
And I believed you cared  
You were my world  
And that seemed to be enough  
I didn't know that all you did  
Wasn't real love

## Chorus

Somebody tell me why the worlds so cold  
Why you think you're in love  
Then there's noone there to hold  
I dream too much. I dream too much  
Somebody tell me why he had to go  
When all I gave him was love  
The disappointment is all I know  
Why is it never enough  
When you think you're in love

## Verse 2

Before I leave the house  
I have to pass those steps  
Before I close the door to go out  
I keep wondering why you left  
Thinking you'd come back somehow  
Like the fool I am  
I kept asking myself where you were  
Would you come straight to me and when

## Bridge

You've got me wrapped around and whipped  
You've got me waiting boy I'm hooked  
You've got my heart and you didn't have to take it  
But baby I never thought that you would break it

## Chorus

Somebody tell me why the worlds so cold  
Why you think you're in love  
Then there's noone there to hold  
I dream too much. I dream too much  
Somebody tell me why he had to go  
When all I gave him was love  
The disappointment is all I know  
Why is it never enough  
When you think you're in love
