

GENRE: ROCK

Verse 1

Anxious, the thoughts, I had today
A different type of exposure, on display
Envision, your hands, all over me
The closer you move, harder I breathe

Coda

Cause baby you've got
The fire in my eyes
Know how to get me going
So synchronized
Take me out just like
Predator to prey
Just want to tear you apart
When you're this way

Chorus

I've been taken over
I've been taken over
Drunk off your love but yet I'm sober
And your mind just bends to play
My animal instincts can't behave
I've been taken over
I've been taken over

Verse 2

Seeking demise of your will
Heart acceleration though you're still
Gets me so frantic when you look
You're reading me now, an open book

Coda

Cause baby you've got
The fire in my eyes
Know how to get me going
So synchronized
Take me out just like
Predator to prey
Just want to tear you apart
When you're this way

Chorus

I've been taken over

I've been taken over

Drunk off your love but yet I'm sober

And your mind just bends to play

My animal instincts can't behave

I've been taken over

I've been taken over
