

(Style: Eerie-Angry Rock)

Verse 1

My thoughts are going places
I never thought they'd go
I'm breaking under pressure
We're breathing both in time

Chorus

I think you'll be my destruction
Like lightning, strike me down
You have that way of knowing
You know your way around
I think you'll be my destruction
Feed off my misery
Start taking the precautions
Or you'll be the end of me

Verse 2

My nerves are too excited
You're getting way too close
Impairment of my judgement
You're clouding up my mind

Chorus

I think you'll be my destruction
Like lightning, strike me down
You have that way of knowing
You know your way around
I think you'll be my destruction
Feed off my misery
Start taking the precautions
Or you'll be the end of me

Bridge

Look now I'm hyperventilating
I keep on underestimating...you
Back up, you're so intoxicating
Not letting you pull me with you

Chorus

I think you'll be my destruction
Like lightning, strike me down

You have that way of knowing
You know your way around
I think you'll be my destruction
Feed off my misery
Start taking the precautions
Or you'll be the end of me
