

### **Verse 1**

You always were a rock star

They couldn't see

Feeding off the attention

One big party

Glazed over eyes

The baby cries

But you don't hear

Glazed over eyes

Too scared to fight

Gave into the fear

### **Chorus**

Overdo-----se

Panic in your head

Overdo-----se

Let it die instead

A burdened heart that rages

Sadness so contagious

This is what will make us

Overdo-----se

### **Verse 2**

Delusions of grandeur

Surfaced from all your dreams

Let's play pretend one more time

Muffle those screams

I call your name

The walk of shame

Underneath it shows

I call your name

But no one came

Now everyone knows

### **Chorus**

Overdo-----se

Panic in your head

Overdo-----se

Let it die instead

A burdened heart that rages

Sadness so contagious

This is what will make us

Overdo-----se

### **Outtro**

You always were the rockstar

Light they now see
