

### **Chorus 1**

People say that you're disturbed  
But I like the things I've heard  
A little danger in your eyes  
The kind that makes you realize....  
Safe players are always wanted on the wrong side

### **Verse 1**

I can tell that you have been  
Some darker places I won't know  
If you stay here too long  
I might be tempted to go  
Its so sexy, that unknown factor  
But if you take me, what happens after

### **Chorus 2**

I had resolved myself to stay  
Don't you look at me that way  
Tells me more than you can say  
Stop inviting me to come and play....  
Safe players are always wanted on the wrong side

### **Verse 2**

The risk of this is understated  
This is getting complicated

What am I getting myself into

One more look and I'm lost in you

It's so sexy, that unknown factor

But if you take me, what happens after
