

**Verse 1**

The story we let unfold  
A story that's left untold  
Cause you're in my darkness  
Always in my darkness

Your energy through my veins  
A restless storm I can't explain  
But you're in my darkness  
Still in my darkness

**Chorus**

And the moon dies every morning so the sun can breathe  
And you'll always take the backseat while I take the lead  
Can't coexist but can't exist without you  
Even when I'm in the light, I still can't see  
You're fighting with the darkness inside me

**Verse 2**

As I start to fall asleep  
You awaken the dreams in me  
Cause you're in my darkness  
Always in my darkness

Manifested from my heart  
Forced to then be ripped apart  
You'll return to darkness  
And I just can't stand this

**Chorus**

And the moon dies every morning so the sun can breathe  
And you'll always take the backseat while I take the lead  
Can't coexist but can't exist without you  
Even when I'm in the light, I still can't see  
You're fighting with the darkness inside me

**Outtro**

You're no longer present here  
Still can not be replaced  
My clarity has disappeared  
While your touch illuminates
